RE: Appeal of Adjusted Form 486 Service Start Date for FY 2015

BEN: 232653

Form 471: 1023621

FRN: 2885638

Ms. Dortch,

On Oct 26, 2016 I received an email communication from our Schools and Libraries Coordinator for Pennsylvania, reminding me to file my BEAR form 472 for the 2015 funding year. In the process of finding the relevant data to submit with my filing, I discovered that I hadn't received a revised FCDL for a SPIN change and split FRN I requested in February. I called the USAC helpdesk to inquire the status of that change. USAC emailed me a copy of the Revised FCDL and I promptly filed my 486 and BEAR reimbursement. Please see attached correspondence and forms.

Yesterday, Oct 31st I received email notification denying my BEAR reimbursement stating timely filing. I contacted my State Coordinator who explained that my Form 486 for the newly created FRN was submitted late and therefore USAC adjusted my Form 486 Service Start Date to June 28, 2016 – essentially denying my E-rate funding for FY2015 for that service.

I respectfully request the FCC to grant our appeal and adjust the Form 486 Service Start Date to the date of our original FCDL so that we do not lose any E-rate funding.

Thank you for your consideration,

Annette Mossburg
